Ajaykumar Vodla

UI/UX DESIGNER

+91 93461 75460 vajaykumar436@gmail.com Hyderabad, India Portfolio LinkedIn Behance

Dear Hiring Manager,

I am applying for the UI/UX Designer position at your company. I have 3+ years of experience designing websites, web apps and mobile apps at Allyted Solutions, Hyderabad, from research to developer hand-off.

I run the full design process: personas, user journeys, user flows, information architecture, wireframes, high-fidelity UI and Figma prototypes. I build design systems and component libraries so web and mobile screens stay consistent.

I have designed e-commerce, EdTech and HR/recruitment products:

- **VOYD Interiors:** one website for customers and vendors with quotes, design selection by budget, shop, checkout and order tracking. I designed it and developed the shop and e-commerce screens.
- **JaldiHire:** designed the website, and I am now working on the web app redesign, running a UX audit and building the design system.
- **Property Inspection Tool:** a mobile app and a CRM web app. I designed it and built some of the frontend screens, and I am still adding features.
- **Trainex Academy and Allyted HRMS:** designed the Trainex website and worked on both the design and the development of the company's internal HR tool.

I work closely with managers, developers and testers, and I check the built screens against my designs. I also write HTML, CSS, JavaScript and React, so I can build screens myself and design things developers can build easily. Along with design, I make motion graphics, logo animations and logos. In 2024, I received the Best Employee award at Allyted Solutions.

Skills: Figma, Adobe XD (basic), Photoshop, Illustrator, After Effects, wireframing, prototyping, design systems, responsive design, HTML, CSS, JavaScript and React.

You can see my case studies and work at ajay-portfolio11.netlify.app.

Thank you for your time. I would be happy to discuss how I can contribute to your team.

Sincerely,
Ajaykumar Vodla
