Other	Motion Graphics, Video Editing, HTML, CSS, JavaScript, React (basics)
Soft skills	Communication, Teamwork, Problem Solving, Attention to Detail, Ownership

EXPERIENCE

UI/UX Designer · Allyted Solutions, Hyderabad

Feb 2023 - Present

- Design websites, web apps and mobile apps from research to developer hand-off.
- Run the full design process: personas, journeys, user flows, information architecture, wireframes, high-fidelity UI and Figma prototypes.
- Build design systems and component libraries so web and mobile screens stay consistent.
- Agree flows with the manager before design, and work with the PMO and testers through build.
- Collaborate with developers from start to finish: share Figma files and specs, answer questions and check the built screens against the design.
- Use AI tools like Claude and Lovable to build working screens and quick prototypes, and to speed up my design work.
- Designed screens for the company's internal HRMS and the Allyted Solutions website.
- Received the Best Employee award in 2024, given company-wide.

UI/UX Designer (Freelance) · Big Leap Technologies

- Designed the website (6 pages) and a placement-focused LMS from scratch for an IT training institute, from research to hand-off.

PROJECTS

VOYD Interiors

Live site ↗

Website and online shop · Web and mobile

- Designed one website for customers and vendors: get a quote, choose designs by budget, shop, checkout and track orders.
- Designed the account screens, vendor sign up, mobile screens and the design system.

Property Inspection Tool

Mobile app and CRM web app

- Designed a mobile inspection app for field teams and a CRM web app to manage properties, reports and follow-ups.

JaldiHire

Live site ↗

Marketing website · Landing pages

- Designed the website of an AI recruitment platform from scratch, with a separate landing page for employers, job seekers and interviewers.

Trainex Academy

Live site ↗

EdTech · Website

- Designed the Trainex Academy website from scratch, from research and Figma prototypes to final hand-off.

Big Leap Technologies (Freelance)

Live site ↗

EdTech website and LMS

- Designed the website and a placement-focused LMS from scratch for an IT training institute.
